INTRODUCTION

Smart ERP is a cloud-powered Enterprise Resource Planning system designed to automate, connect, and optimize your entire business operation. From finance to production, sales to HR—manage everything in one unified platform with real-time insights and seamless workflows.

1

All-in-One Platform:

Connect accounting, sales, purchase, inventory, HR, and production.

2

Cloud-Based Access:

Work anytime, anywhere with secure cloud storage.

3

Scalable Modules:

Add features as your business grows—perfect for SMEs & enterprises.

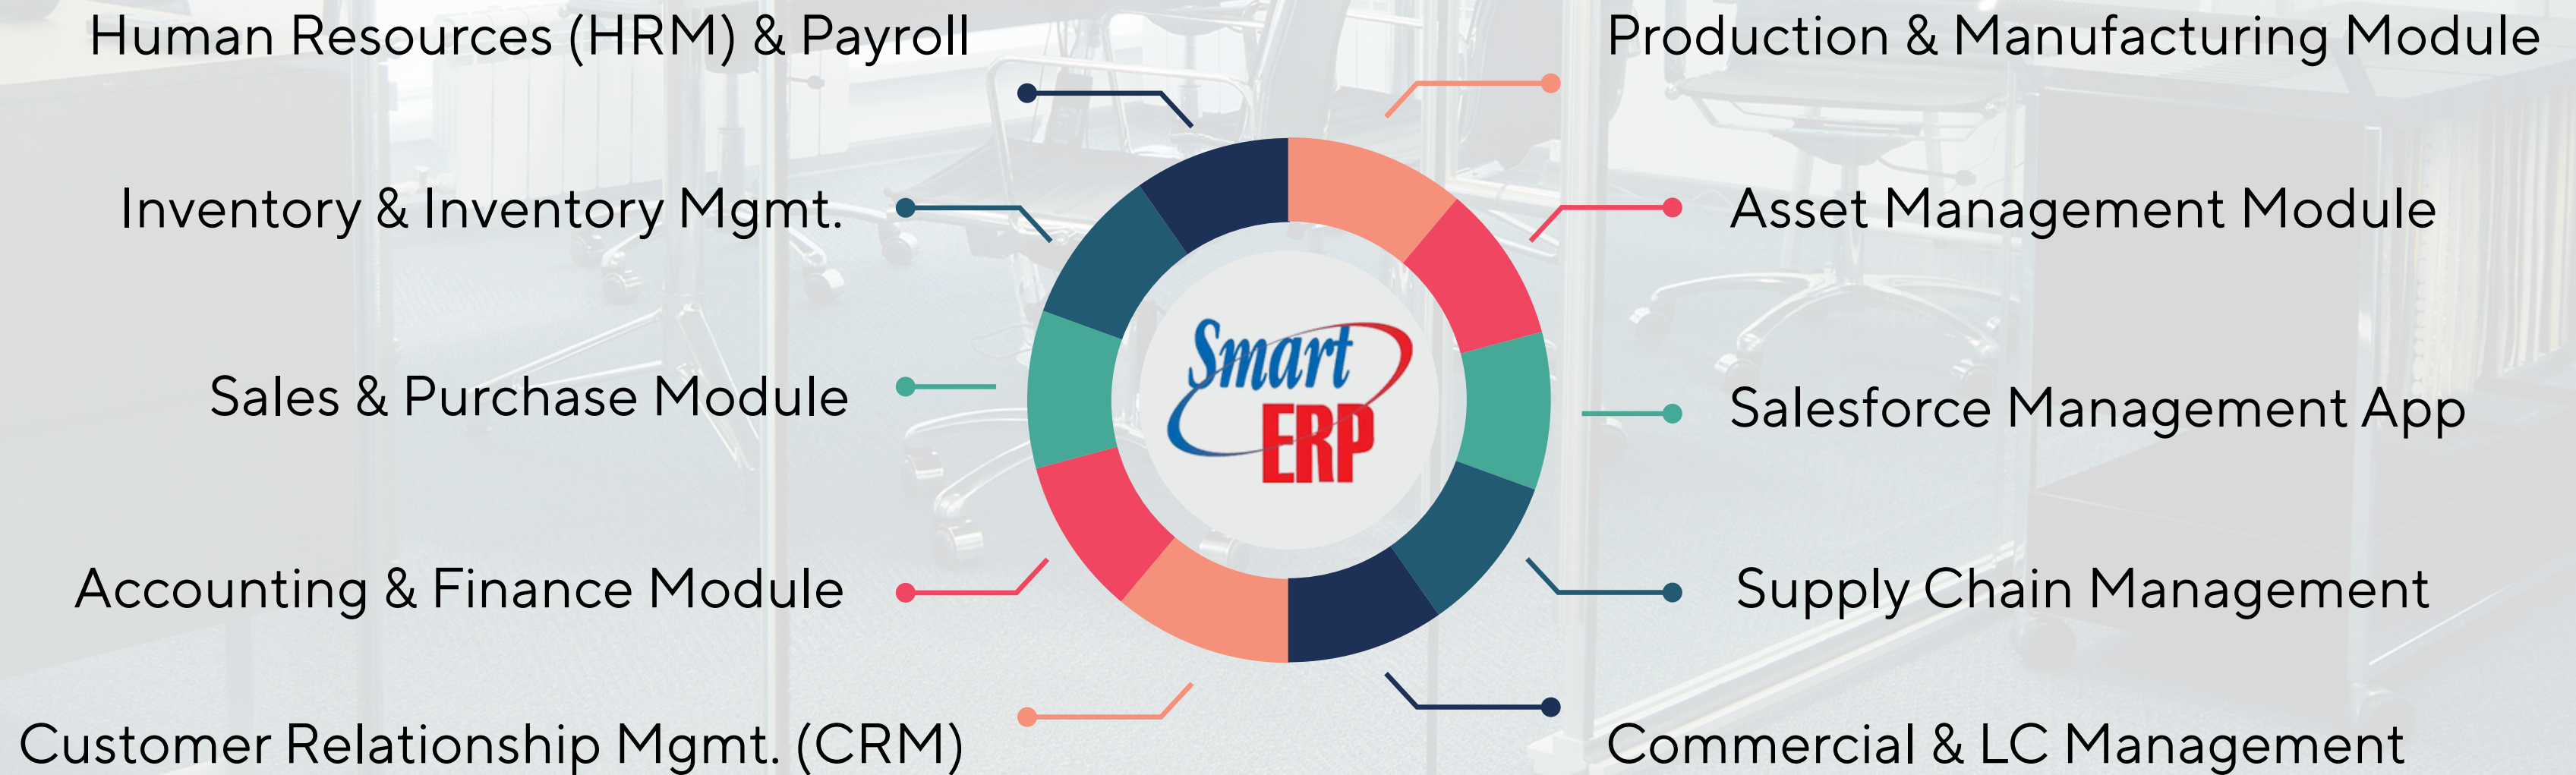

4

Real-Time Reporting:

Make faster decisions with live dashboards & analytics.

MODULES

MODULE DETAILS

Human Resources (HRM) & Payroll

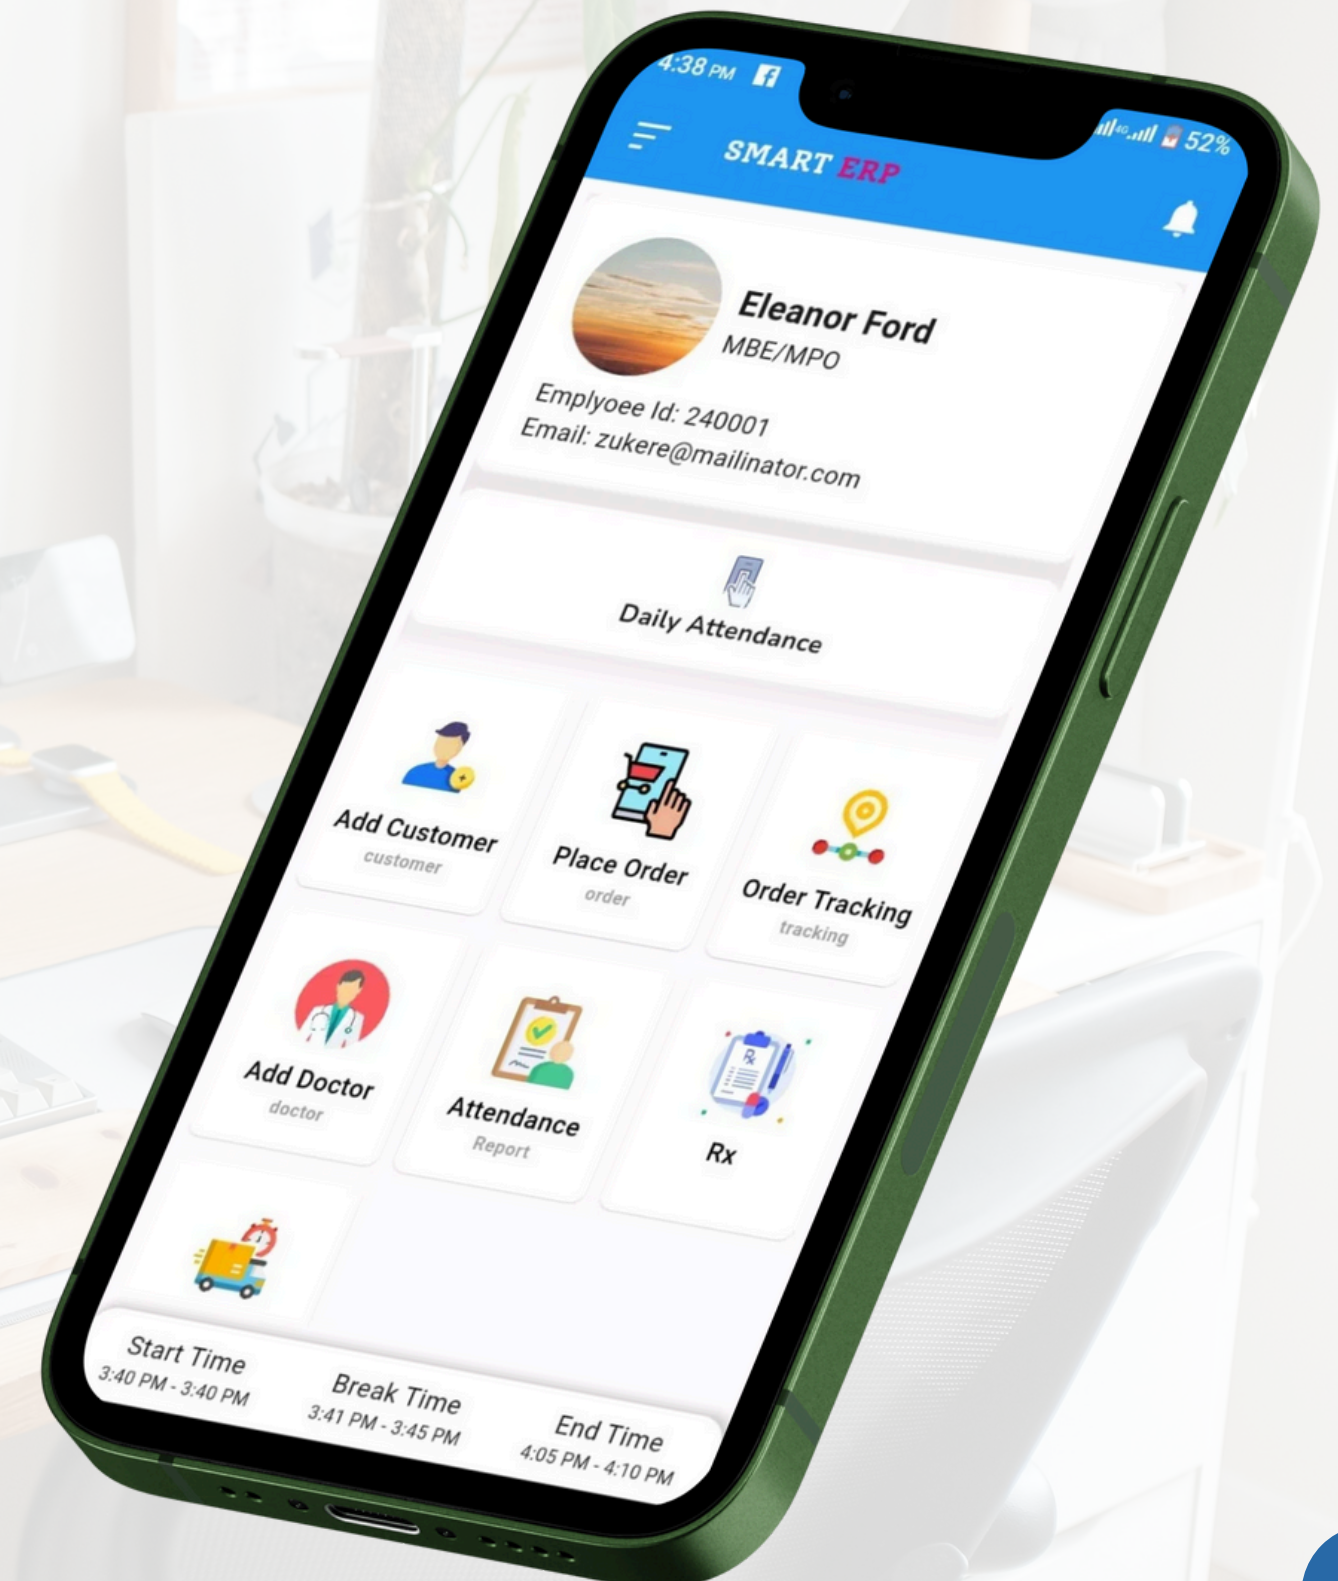

Automate from hiring to retirement with mobile self-service and accurate, compliant payroll.

Supply Chain Management

Optimize your entire supply chain for greater efficiency, from procurement to delivery.

Customer Relationship Management

Nurture leads, track customer interactions, and drive sales with marketing automation.

MODULE DETAILS

Inventory Module

Gain real-time stock visibility, track batches, and eliminate stock-outs or overstocking.

Asset Management Module

Track, maintain, and optimize all company assets—reduce loss and maximize value.

Sales & Purchase Module

Streamline quotes, orders, and supplier management for a faster, more accurate sales cycle.

Salesforce Management App

Empower your field force with mobile tools for order booking, client visits, and performance tracking.

Accounting & Finance Module

Automate financial operations and generate real-time P&L, balance sheets, and cash flow reports.

Commercial & LC Management

Simplify complex Letter of Credit processes and track international transactions from start to finish.

Production & Manufacturing Module

Plan production, track shop-floor progress in real-time, and calculate precise product costing.

TYPE OF ERP

Hotel ERP

Handle bookings, POS, inventory, accounts, and HR with an integrated hotel suite.

Garments ERP

Manage merchandising, TNA, production, costing, and shipments in one system.

Hospital ERP

Manage patients, billing, pharmacy, diagnostics, and administration seamlessly.

Business ERP

Flexible ERP modules for **manufacturing, trading, education, pharmaceuticals**, and **more**.

BENEFITS & ROI

Smart ERP empowers organizations with faster decisions, smoother operations, and scalable growth. Built for modern businesses, it delivers real-time control, cloud accessibility, and reliable support to keep operations running efficiently.

- Better Decision Making
- Operational Efficiency
- Cost Savings
- Scalability & Flexibility
- Anywhere Access
- Reliable Support

RISK MANAGEMENT

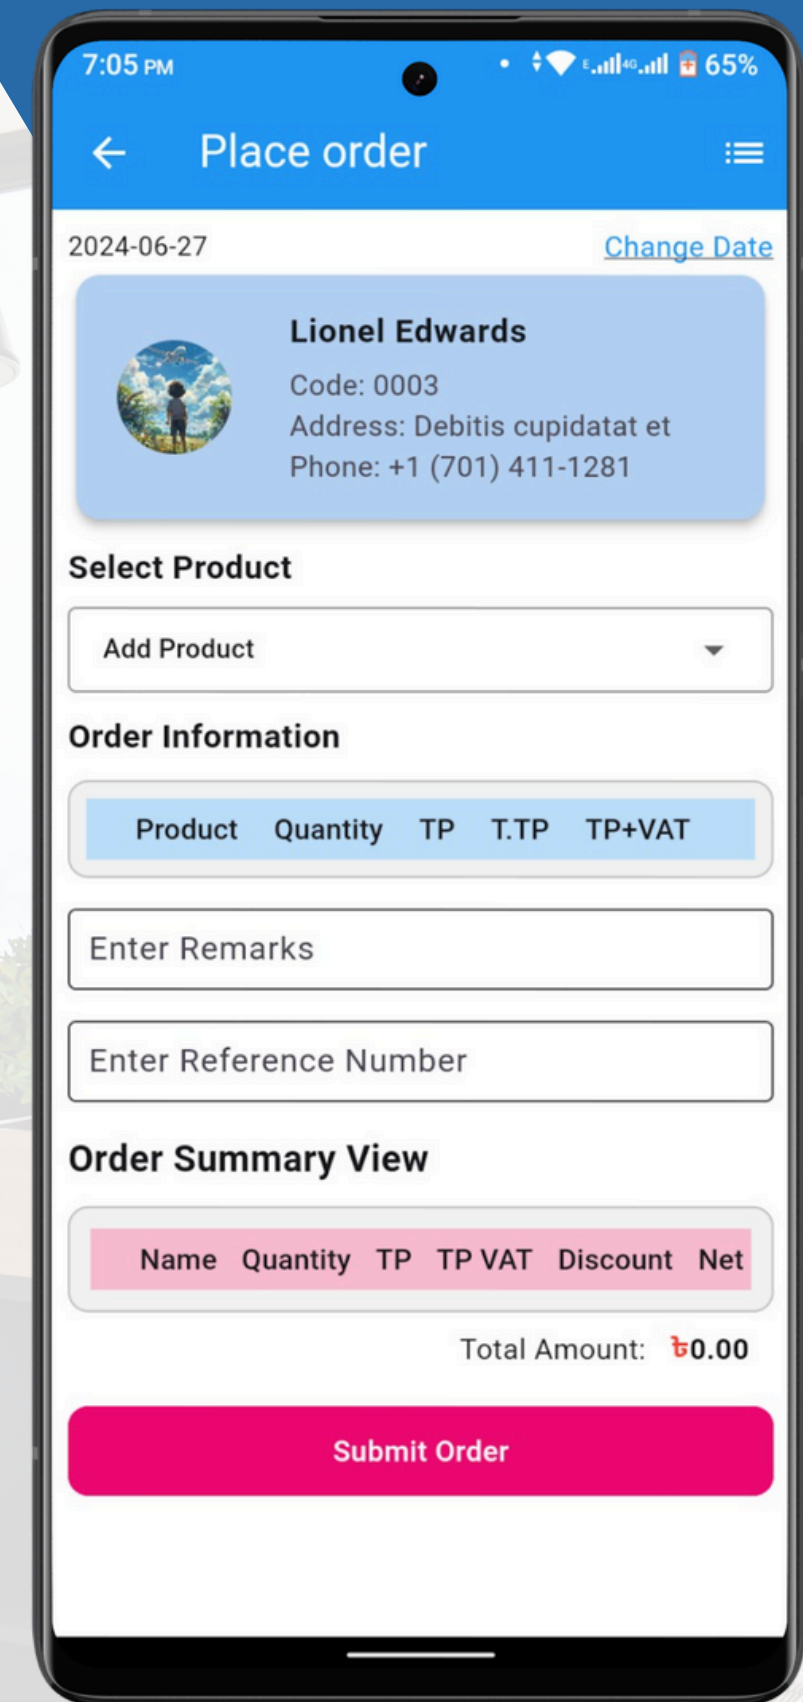

Smart ERP helps organizations anticipate and minimize financial risks by providing real-time alerts, performance analytics, and variance reports. Early detection ensures smoother financial operations.

Detect budget deviations with instant alerts and dashboards.

Improve compliance through structured approval workflows.

Identify financial risks using detailed variance and trend reports.

Strengthen financial control with audit-ready data and secure records.

The image shows a smartphone screen displaying a 'Place order' application. The interface includes a header with a back arrow, the title 'Place order', and a menu icon. Below the header, the date '2024-06-27' is shown next to a 'Change Date' link. A user profile section for 'Lionel Edwards' displays a profile picture, code '0003', address 'Debitis cupidatat et', and phone number '+1 (701) 411-1281'. A 'Select Product' section features a dropdown menu labeled 'Add Product'. The 'Order Information' section contains a table with columns 'Product', 'Quantity', 'TP', 'T.TP', and 'TP+VAT', followed by input fields for 'Enter Remarks' and 'Enter Reference Number'. An 'Order Summary View' section shows a table with columns 'Name', 'Quantity', 'TP', 'TP VAT', 'Discount', and 'Net', and a 'Total Amount: ₺0.00'. A large pink 'Submit Order' button is at the bottom.
