At a glance

Smart Account is a comprehensive, cloud-based accounting and inventory management system designed for Bangladeshi businesses. It automates your core financial processes, provides real-time insights, and ensures compliance, allowing you to focus on strategic growth.

Just like leading global platforms, Smart Account provides a centralized command center for your business.

Financial Snapshot: Get an instant view of your cash flow, receivables, and payables.

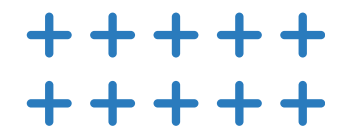

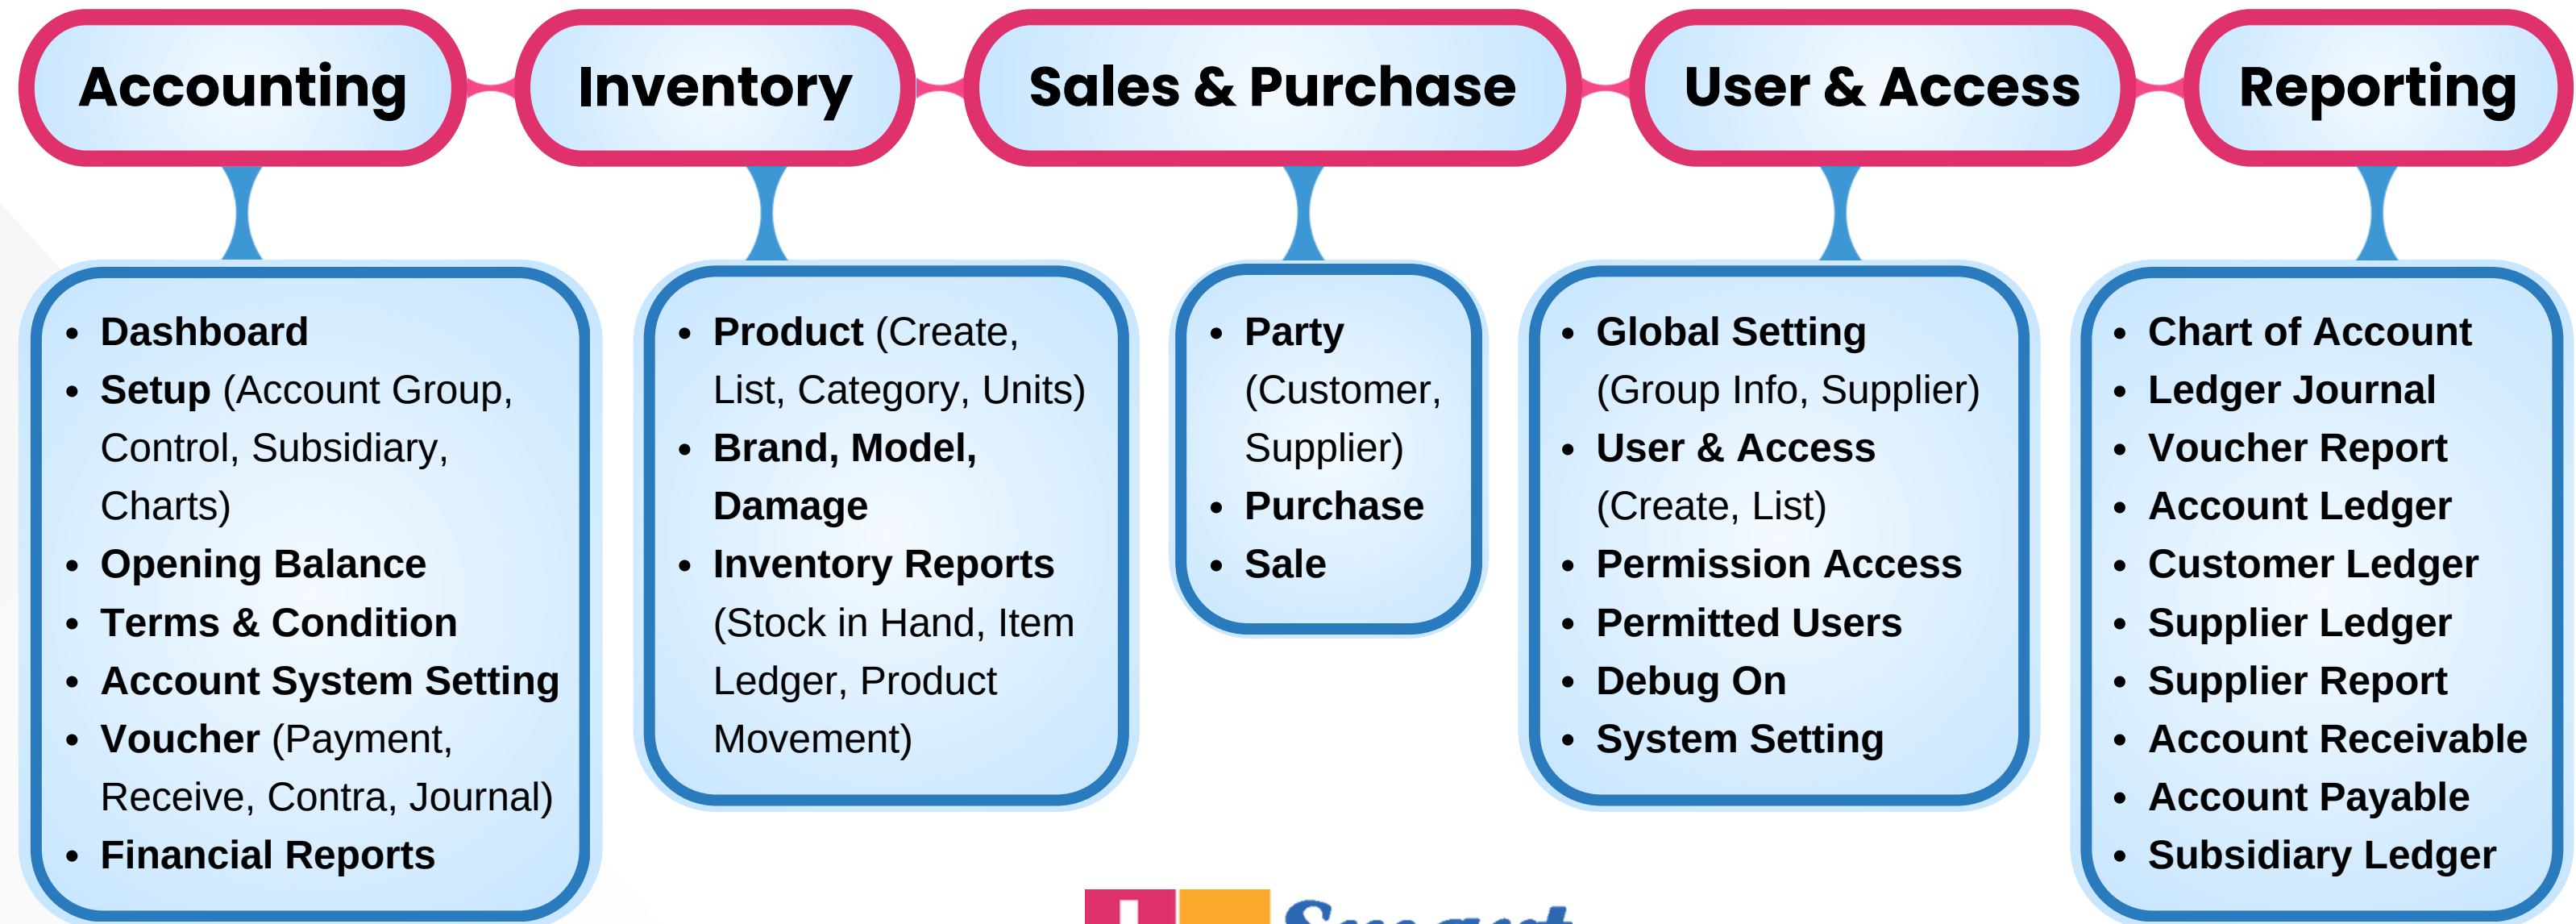

Key Metrics: Monitor crucial data like Total Unpaid Invoices, Overdue amounts, and Net Cash Position.

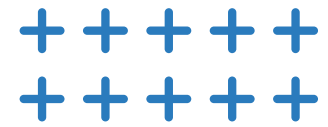

Quick Access Menu: Navigate seamlessly through all modules.

Modules

One unified platform integrating accounting, inventory, sales, and purchases for automated operations and real-time data access

Core Business Modules

Construct a robust accounting core with our defined layers: **Account Groups** establish hierarchy, **Account Controls** enforce rules, **Account Subsidiaries** enable granular tracking, and **Account Charts** form the master framework. This structured system is the engine that drives and automates all your core modules. From voucher entries and inventory updates to party-ledger management, ensuring perfect data flow and real-time reporting.

Voucher & Accounting

Payment • Receipt • Contra • Journal
Record all financial transactions; automatically posts to ledgers.

Party Management

Customer • Supplier
Maintain ledgers for all business partners; track receivables & payables.

Product & Inventory

Product Create/List • Category • Brand • Units • Damage
Complete master data management and stock tracking.

Financial Setup & Core Transactions

SETUP
